

To Whom it May Concern,

It is with pleasure to share our experience with Ecovis Bizcorp Management Pte Ltd ("Ecovis") on the services they provide to our company.

We have engaged Ecovis to provide monthly outsourced accounting and reporting services since 2009. Ecovis also provides year-end closing including liaison with auditors. They also act as our tax agent since 2009.

Being part of the world's largest automotive group, our company has very high expectation on service quality and commitment in reporting. My working relationship and communication with Ecovis over these years has been great. Ecovis proves to be a trust-worthy partner, whom can always deliver their work accurately and in a timely manner. During the yearly auditing period, they can proactively prepare all the audit schedules and communicate well with auditors.

We have worked with different staff from Ecovis. The staff assigned to handle our accounts is Mr. Tan Too Kian, who provides high quality professional services and delivers timely accounting works. Over these years, we communicated well by exchanging ideas in order to improve the efficiency and accuracy within the accounting works and daily finance operations. We have not encountered any problem such as missing corporate reporting deadline.

I would be very happy to recommend Ecovis services as it gives consistently high quality work and excellent service quality.
