

I am extremely satisfied with the service level provided by Ecovis. They are prompt with their replies and furthermore they have provided resourceful advices on doing business in Singapore.

Previously, we were caught up with a dilemma in the aspects of structuring our company in Singapore. Ecovis consultants were very professional in coordinating and executing our plans.

We believe in Ecovis' philosophy, that is the global expertise with local advice. And we are always happy to recommend Ecovis without any hesitations.

I am happy to work with Ecovis again as we move forward.

Sincerely,

Mr. Ozan Aslan, CPA
